

# OHS Schedule Change

Information  
and  
Feedback

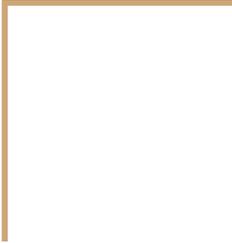

# OUR PURPOSE:

Design a master schedule for OHS that meets the needs of ALL students through building strong relationships and focusing on increasing academic achievement.

## REASONS FOR CHANGE:

- Large class sizes limit student/teacher contact time
- 7- 48 minute periods creates hectic environment for students and teachers that is not conducive to effective learning
- Students feel that 7 classes is too many to manage at one time
- Lab teachers want longer periods for deeper learning and hands-on opportunities
- Staff desires addition of a daily advisor to build stronger relationships with students

# 5 Period Trimester

## Highlights

- Students have a lot of free elective credits. This means they will be able to
- Class length is middle ground (65 minutes)
- Teacher load is the low @ ~140 Students at any given time.
- Weekly & Daily Schedule is Easier to Understand and “cleaner”
- Teacher Prep is 5 days a week.
- 5 Period day seems very manageable

## Concerns

- Trimesters do not easily allow for Music, AVID, religious release students to do these things every trimester every year.
- Contact time per credit is lower than 6 Periods.
- The GAP issue (A and B section of a course may not be consecutive or an extended gap could occur from year to year).
- Class sizes average 1 student higher than 6 Periods.
- Thinking of courses as A & B sections vs Semester Long and Year Long would be a substantial shift for teachers.

# 6 Period Modified Block

## Highlights

- 76.5 hours for every half credits is greater contact time than trimesters.
- Year long/daily relationships-potentially
- Classes can do labs or projects during the 90 minutes once/week blocks
- Enrichment Block could benefit advisory or clubs/CTSO's
- Use enrichment/intervention time to assist in student experience or as dedicated assembly time to preserve class time.

## Concerns

- Four elective credits is low and could negatively impact electives and CTE courses specifically.
- Schedule Flexibility for students
- Homework & Organization load for students potentially heavy
- Monday/Tuesday is 1 Long Prep vs 2 Shorter Preps.
- Intervention/Enrichment needs quality planning or it may not be a good use of time.
